
5. Exploded Views and Parts List

[Material Code Standards]

Material codes and names and their respective naming rules are managed in accordance with the prescribed standards.

Please refer to these standards when requesting a material.

1. Material Code Type

(●: Number, ■: Letter (Alphabet))

Type 1: ●●●●-●●●●●● ex) 0204-000418 FREON

Type 2: ■■●●-●●●●●■ ex) DC96-01390A ASSY-CONTROL

▶ Type 1: Enterprise-wide parts

Type 1 materials can be used for all Samsung Electronics products.
(Most electrical parts belong to this type.)

▶ Type 2: Division-wide parts (DC** - Washing machine)

Type 2 materials can be used for specific products.
(Most instruments and tools belong to this type.)

2. Ass'y Materials

: All ass'y material codes start with DC9*.

An ass'y material is created by combining more than two materials. If a requested material cannot be provided, you can request an ass'y material that contains that material.
